MINUTES OF A SPECIAL MEETING OF THE BLANDING CITY COUNCIL
HELD FRIDAY JULY 17, 1942 IN THE REGULAR MEETING PLACE.

The Blanding City Council met in special session pursuant to the call of the Mayor Friday July 17, 1942 at 8:30 P. M. All members were present except Grant L. Bayles.

The purpose of the meeting was to discuss the feasibility of furnishing light and water as an inducement to the Blanding Mines Co. to get them to rebuild their recently burned vanadium mill in the vicinity of Blanding instead of the old location in Cottonwood canyon West of Blanding.

Much time was spent discussing the benefits and the objectionable features of having the mill located in or near the corporate limits of the Town. After deliberating on the matter. H. T. Black moved that the Mayor and the Clerk be authorized to write H. L. Bigler of Cortez Colorado and President of the Blanding Mines Co. a letter encouraging them to consider Blanding as the logical place to rebuild the mill. Hattie R. Barton seconded the move and the motion carried. Thereupon the following letter was written and the Mayor and the Clerk affixed their signatures thereto:

Blanding, Utah
July 17, 1942.

Mr. H. L. Bigler
President, Blanding Mines Co.
Cortez, Colo.

Dear Mr. Bigler;

It has come to our attention that your Company plans to reconstruct vanadium mill recently destroyed by fire. In this connection we desire to impress upon you and your company the strategic location of the Town of Blanding and the advantages to be derived by building a vanadium mill in or near the corporate limits of the Town of Blanding.

In the interests of National Defense our Board of Trustees and residents urge you to build in or near Blanding for the following reasons:

Since you have been operating at ^{the} Cottonwood claims you have been dependent on the residents of Blanding for labor, and there has been no labor shortage. We have many residents and families that have been dependent on your operation for employment. Present indications are favorable for sufficient labor to operate a mill of much greater capacity than you have heretofore operated. If a mill be built in Blanding much transportation of laborers will be avoided, and this will insure continuous and uninterrupted operation.

We are aware of the fact that Blanding is in the hub of a vast vanadium producing area. Sufficient vanadium ores of milling grade is available without major transportation difficulty. Many vanadium claims are in close proximity to Blanding. This will supplement your present production from ^{the} Cottonwood claims.

The protection afforded by building in or near Blanding should not be overlooked. You will have greater fire ~~XXXXXXXXXX~~ and police protection.

H. L. Bigler, Continued.

There are numerous other reasons that we consider important and we will discuss them with you at your convenience.

As an inducement to you, and in the interests of National Defense, the Town of Blanding, Utah, warrants and agrees in the event you build the mill in or near Blanding, to do and perform the following:

1. To permit you to connect with our water lines, and such water as you desire to purchase and use from our mains will be furnished you for a period of ten years at the rate of one and one half cents (1½) per thousand gallons, and thereafter at a rate that will not exceed three cents (\$0.03) per thousand gallons.

2. To furnish stand by power service to the extent our facilities permit. Such stand by service will be furnished at a cost not exceeding the lowest established commercial rate.

3. To furnish fire and police protection insofar as our present facilities permit.

4. To fully cooperate with you in order to insure a successful operation and continuous production of vanadium.

The above offer is irrevocable for a period of 90 days, and if requested we will furnish such other instruments in writing, in connection with the foru matters above mentioned, as you may deem necessary or advisable.

Very Truly yours,

Town of Blanding

By Mayor M. F. Lyman

Attest:

W. R. Hurst Clerk.

President Lyman asked Superintendant Hansen to present the views of the school board in regard to the electrical rates charged the school. Mr Hansen thereupon discussed the matter mentioning that our school building had cost the board a lot of money and that it was a very expensive building to operate. Every means of cutting expenses was being employed and asked that the Town of Blanding meet the rates ~~for~~^{for} the school in Monticello by the Monticello, Town.

It was the consencous of opinion that that the present rate of 7¢ per KWH charged the school was just about as low as the Town of Blanding could produce it for. After some discussion, Trustee George Sittton, moved that a careful survey be made of the cost of producing said electrical energy and upon completion of the survey if it is found possible to produce it for less than we now anticipate, allow the school board every consideration possible. Trustee Joseph L. Nielson seconded the move and it carried.

J. E. Adams met with the board in behalf of the board of County Commissioners, of San Juan County. The purpose of Mr. Adams

being in attendance was in regard to the allocation of funds from the State Road Commission. Mr. Adams stated that there was to be money spent on the streets of the Town of Blanding following the decision of the Board of Trustees as to where the money was to be spent. Considerable time was spent discussing whether to spend said money on curb and gutter work in the center of Town or gravel those streets which heretofore have been without gravel. Due to the need of further information no action was taken on this matter. It was decided that it would be necessary to contact the engineer and get better acquainted with the curb and gutter work before any decision could be reached.

D. L. Bayles met with the Board to ask permission to change the course of the ditch by moving it from where it crosses the street between Irene and Caroline Redds places and moving it south one block making it cross the street between Daniel Perkins and B. D. Blacks North corners. The Board ^{gave permission to} ~~granted Grant and De~~ to build said ditch if it was done in a satisfactory manner but would assume no responsibility for the ditch in the future.

Trustee Parley Redd Moved we appoint Geo. A. Hurst as manager of the Light and water systems with a salary of \$75.00 per month. Trustee Lloyd Adams seconded the move and it carried.

Some time was spent discussing the ordinance regulating peddlars operating within the corporate limits of the Town. Lloyd Adams moved that the old Ordinance be repealed and a new Ordinance be written, charging peddlars \$2.50 per day or part of a day and that the rate of \$20.00 per year or part of a year be charged. Note. A copy of such Ordinance is on file. Is registered on page 9 of the book of ordinances. said Ordinance being numbered 268. Joseph L. MINUTES OF A SPECIAL MEETING OF THE BOARD OF
OF TRUSTEES OF THE TOWN OF BLANDING
HELD MONDAY, MARCH 27, 1939.

The Board of Trustees of the Town of Blanding in San Juan County State Of Utah, convened in special session pursuant to the call of the President of said Board at 8 o'clock P. M., on the 27th day of March 1939.

The meeting was called to order by the President of the Board and prayer was offered by William R. Hurst, Clerk.

The Town Clerk called the roll. Those present and those absent were as follows:

Present: M. F. Lyman, Geo. A. Hurst Jr., Parley Redd, Joseph B. Harris and B. Frank Redd.
Bishop John D. Rogers was also present.

A Resolution entitled:

"RESOLUTION TO AWARD THE WATERWORKS REVENUE BONDS TO THE UNITED STATES OF AMERICA"

was introduced by Trustee Geo. A. Hurst Jr.. The said Resolution was seconded by Trustee Parley Redd and was adopted with the following vote:

AYES: M. F. Lyman, Geo. A. Hurst Jr., Joseph B. Harris Parley Redd and B. Frank Redd.

Nays: None.

The next order of business to be considered was the passing of an Ordinance No. 266.

The Ordinance, entitled:

"AN ORDINANCE AMENDING SECTION 3 AND SECTION (9 OF ORDINANCE NO 264. OF TOWN OF BLANDING, ADOPTED THE 14th DAY OF OCTOBER, 1938"

was introduced by Trustee B. Frank Redd. The said Ordinance was seconded by Trustee Joseph B. Harris and was adopted by the following vote.

AYES: M. F. Lyman, Geo. A. Hurst Jr., B. Frank Redd, Parley Redd and Joseph B. Harris.

The President of the Board of Trustees thereupon declared the Ordinance carried and said President thereupon signed the Ordinance in approval thereof.

Bishop John D. Rogers met with the Board to ask permission to build an outside dance floor and skating rink of concrete construction on the northeast corner of the Public Square on the present site of the tennis court. After some discussion it was agreed that if possible the pavilion be constructed south of the tennis court and east of the Relief Society Building which now stands on the Town property, and it was further agreed that the ground on which it is to be

built, or that section of ground heretofore described, together with the ground on which the Relief Society Building now stands shall be deeded to the Blanding Ward, of the Church of Jesus Christ of Latter-day Saints. There was however a possibility that such location of said pavilion would not be feasible and in order that the matter be definitely settled the Board of Trustees made an appointment with Bishop Rogers to investigate the matter the day following the date of this meeting.

The remainder of the meeting was taken in discussing problems pertaining to the price of water used for irrigation purposes. It was the opinion of those present that before such price could be justly set it be necessary to make some test runs by allowing several hydrants in different locations within the Town run for a given period to ascertain the amount of water a hydrant would run during the irrigation period, in order that a fair and reasonable price might be charged the water users.

In connection with the question of water rates. Mayor M. F. Lyman reported that the resolution which was drawn up by the Clerk to notify the C. C. C. Camp that there would be a charge for the water used in the camp after a certain time, was rejected by the officials in charge of the expenditures of the said Camp and that they had referred him to a contract which stated that the Town of Blanding was to furnish a given amount of water to the Camp from the spring in Westwater, providing the Camp furnish the fuel to pump said water. He also stated that he had served notice on the camp authorities that the Town of Blanding would furnish the pumping equipment to the Camp and from now on it would be their responsibility to furnish their own water.

Trustee Geo. A. Hurst Jr. asked what was to be done in cases where one family wished to install two meters, one at their residence and the other in their corral or a lot on which they hoped to raise a garden. It was decided after considerable discussion that in view of the fact that the Town of Blanding is financially unable to invest money to furnish more than one meter per family that each family in need of extra meters, advance the money to cover the cost of installing and purchasing said meter with the understanding that their water accounts would be credited with the amount which amount would be used to defray the cost of water until sufficient water had been used to equal said amount.

It was moved by Trustee Jos. B. Harris that the meeting adjourn. The move was seconded by Trustee B. Frank Redd and carried.

William R. Hurst,
Clerk, Town of Blanding.

MINUTES OF A SPECIAL MEETING OF THE
BOARD OF TRUSTEES OF THE TOWN OF
BLANDING, APRIL 20, 1939.

The Board of Trustees of the Town of Blanding met in special session pursuant to the call of the President, due and timely notice having been given and all members accepting service, Thursday April 20th in the Lyman Garage, at 8 o' clock P. M.

On roll call the following answered present: Mayor M. F. Lyman and Trustees Geo. A. Hurst Jr., Parley Redd, B. Frank Redd and Joseph B. Harris. The following members of the Board of Directors of the Blanding Irrigation Co. were also present: Joseph B. Harris, B. Frank Redd, Parley Redd, H. C. Perkins Grant L. Bayles, Fred Lyman and Guy R. Hurst Manager of the Blanding Irrigation Co. and F. J. Adams director.

Mayor M. F. Lyman called the meeting to order and Prayer was offered by Trustee Joseph B. Harris.

The purpose of the meeting was to get some understanding between the Irrigation Co and the Town of Blanding in regard to the water to be used for gardens in Town.

Mayor M. F. Lyman reported that the Town had purchased one second foot of water from the Irrigation Co and for the past four years the said Irrigation Co. had been selling water through the distributing system to the inhabitants of the Town of Blanding for irrigation purposes. That it takes but an eighth of one second foot of water to furnish the said inhabitants of the Town of Blanding with cullinary water and that the Irrigation Co had been using the ditributing system to sell said water to the people with out considering the Town. He further stated that not only had the Irrigation Co. used the system belonging to the Town but they had sold water that the Town owned. He expressed himself that The Town was willing to rent water from the Irrigation Co to take care of the irrigation of the lots, in asmuch as the one second foot was considered inadequate to supply both cullinary and irrigation Water. He asked that B. Frank Redd secretary of the Irrigation Co. make a report of the offer made by H. D. Bayles, President of the Irrigation Co.. Mr. Redd thereupon declared that he had been notified by the President that the Town would be furnished with all the water necessary to furnish both cullinary and irrigation water and that the Town in turn should pay the Irrigation Co. \$600.00. that being the amount that they estimated they had collected above the administerative expense in prior years. It summed up to the fact that the Town was to have the expense of handling the lot water furnish the distributing ~~system~~ to sell it and then furnish 7/8 of a second foot of water and then turn all proceeds over to the Irrigation Co.

Mayor Lyman rejected the offer and asked the members of the Board of Directors of the Irrigation Co who were present

to make another offer. They withdrew from the meeting for a few minutes and made the offer of \$300.00 and the Town were to pay F. J. Adams \$80.00 rent for water that the Town had previously rented to fill their reservoirs, this contract with F. J. Adams was to be cancelled with the water furnished from the Irrigation Co.

The Board of Trustees of the Town thereupon withdrew from the meeting and shortly returned with a motion by Joseph B. Harris, seconded by Geo. A. Hurst that the Town pay \$260.00 to the Irrigation Co. and the Irrigation Co. in turn pay F. J. Adams \$40.00 for water used to this date and then give him the use of his water from this date on. All members of the Board of Trustees of the Town of Blanding voted aye on this move with the exception of B. Frank Redd. Mr. Redd withheld his vote.

The Board of Directors of the Irrigation Co. rejected the offer and after considerable discussion the meeting adjourned at 11:30 P. M.

MINUTES OF A SPECIAL MEETING OF THE BOARD OF TRUSTEES OF THE TOWN
HELD MAY 18th, AT 8:30 P. M. IN THE LYMAN GARAGE.

The Board of Trustees of the Town of Blanding convened in special session in answer to the call of the President, Thursday May 18th at 8:30 o'clock. Due and timely notice having been given as per ordinance and on roll call the following members answered present. Mayor M. F. Lyman and Trustees Joseph B. Harris, B. Frank Redd and Geo. A. Hurst Jr. Trustee Parley Redd was absent. Vernon C. Rowley was also present.

Mr. Rowley representing the 125th quorum of seventies of the L. D. S. Church, asked permission to sponsor the 4th of July celebration in Blanding. He stated that they desired to stage a rodeo and that in the event they did it would be necessary to select a location and build corralls and shutes to handle the animals. He asked the assistance of the Town if possible but stated that in case they were unable to do anything, the seventies would go ahead with their plans if they could get the sanction of the Town Board.

After discussing various plans it was the will of the Board that the Seventies be given the day and that anything they could do to procure and develop rodeo grounds would be satisfactory with the Town, but at present any financial help would be impossible. Trustee Joseph B. Harris made the move which was seconded by Trustee Geo. A. Hurst Jr. and it carried without dissenting vote.

A report on the status of the move to enlarge the corporate limits of the Town was given by Trustee B. Frank Redd. Mr. Redd stated that the work of platting was practically completed and everything pertaining to this move was progressing satisfactorily.

Trustee B. Frank Redd moved that the P. W. A. money which was on deposit be paid as follows: Reimburse the general fund \$264.52, Pay Snow Bergin Co. their full amount of \$340.00 and pro-rate the remainder as follows; Pacific States Cast Iron Pipe Co. \$17,300.00, Mullins & Wheeler \$6,000.00 and Caldwell & Richards \$900.00, Trustee Geo. A. Hurst Jr. seconded the move and it carried.

Trustee Geo. A. Hurst introduced a claim that had been made by Wiley Redd against Mullins and Wheeler versus the Town of Blanding. Mr. Redd claimed that Mullins & Wheeler had not paid him the wage scale as designated by the Town of Blanding to meet with P. W. A. requirements and asked that the Town make a demand that Mullins and Wheeler reimburse him the amount he should have been paid. Considerable time was spent discussing this claim. Investigation had been made regarding it and after viewing the claim from every side Trustee B. Frank Redd made the following move: That, Whereas investigation had revealed that Mullins & Wheeler had paid Mr. Redd the full amount designated in the wage scale for caulkers helpers, and

WHEREAS, Mr. Redd was not experienced enough to be classed as a full fledged caulker and,

WHEREAS, Mr. Redd had accepted his wages and signed the pay roll submitted by Mullins & Wheeler as full payment for his services,

NOW THEREFORE BE IT RESOLVED BY THE, the Board of trustees of the Town of Blanding, That the claim of Wiley Redd versus Mullins & Wheeler be rejected as far as it concerns the Town of Blanding

and that the decision of Mullins & Wheeler to the effect that Mr. Redds claim is unjust, receive the full sanction of the Board of Trustees of the Town of Blanding.

Trustee Joseph B. Harris seconded the move and it carried with all those present voting aye.

Considerable time was spent discussing the problem of irrigation water rates where a person pays for culinary water and lot water in one place and then desires to purchase lot water for an additional lot. It was the general opinion that in such cases all the water used on the extra lot would be for the price of irrigation water or $1\frac{1}{2}$ ¢ per one thousand gallons. There was no definite action taken however.

Inasmuch as the Utah Power and Light Co. are no longer maintaining a storage tank for the distribution of fuel oil as they have heretofore done, M. F. Trustee Geo. A. Hurst stated if there was to be any reservoir work done this fall it would have to be done right away before winter weather started. After some discussion the members of the board agreed that inasmuch as we are pressed for funds and the Camp Jackson reservoir needs a little work done to leave the construction in a little more favorable condition for the winter, that Geo. A. Hurst be authorized to spend upwards to \$300.00 if he could get the men and teams from those who are delinquent in their light and water bills.

MINUTES OF A SPECIAL MEETING OF THE BOARD OF TRUSTEES OF THE

Following the notice given to and received by the members of the Board of Trustees the Town council met in session in the Grayson CO-Op Store at 10 A. M. Monday October 2, 1939. The following members were present. M. F. Lyman Mayor and Geo. A. Hurst Jr., Parley Redd and B. Frank Redd, trustees and W. R. Hurst, Clerk. Trustee Joseph B. Harris was absent.

Paul Black met with the Board and asked as a special favor the permission to operate and maintain a candy punch board. Mr. Black stated that he had been compelled to close his cafe because of the high cost of operation and appealed to the Board to consider the dire need of a cafe in the Town before turning him down on anything he had asked for the purpose of increasing his revenue to a point where he would be able to continue the cafe service.

President M. F. Lyman asked each member of the Board to pass his opinion. After some discussion and due consideration, Trustee Geo. A. Hurst stated that inasmuch as the board was for candy and offered something for each punch taken, and that due to the fact the majority of those patronizing the board would be those who would spend their money for something worse, that the Board of Trustees grant Mr. Black permission to operate the punch board as a source of increasing his revenue, until January the 1st as that was as far as the authority of the present Board would continue due the election of a new board this fall. Parley Redd seconded the move and it carried with all present voting aye except B. Frank Redd. Mr. Redd asked that his dissenting vote be recorded in the minutes.

President Lyman declared the motion carried and told Mr. Black that because the cafe is such an asset and because the Board of Trustees is back of anything that will be helpful to our tourist trade it feels that it is right to offer this concession.
